

## Express Service:

# How to request the Express Service for your order

To request the Express Service for your patient, you will need to add the promotion code **“EXPRESS14”** when placing your order. Including the promotion code enables us to accurately recognize the request for the Express Service and for our teams to process your order for expedited handling and with a rapid turnaround time.

Below, please find the instructions for adding the promotion code, whether you are using our online requisition ordering platform Nucleus, or a paper requisition form.

### Ordering via online platform Nucleus

- Select your desired billing method from the drop-down options (Institutional or Patient Payment)
- Add the code **EXPRESS14** to the “Promotion/Contract code” field (see screenshots below for reference)
- Fill in the remaining fields as required

## Orders billed to institutions

## Orders using a paper requisition form

### TEST REQUISITION FORM

This requisition form, and consent forms in other languages, can be printed from [blueprintgenetics.com](http://blueprintgenetics.com)

### Blueprint Genetics

Keilaranta 16 A-B  
02150 Espoo, Finland  
Phone: +358 40 2511 372 (Global)  
Fax: +358 9 8565 7177 (Global)  
support@blueprintgenetics.com

See test codes and detailed descriptions on tests and analysis types on [blueprintgenetics.com](http://blueprintgenetics.com)

REQUIRED FIELDS ARE MARKED WITH AN ASTERISK (\*)

\*TEST CODE

Promotion/Contract Code:

EXPRESS14

### TEST INFORMATION

\* Test Name:

All tests include analysis of both small exonic and splice site variations, and large deletions and insertions.

Sample type<sup>1)</sup>:  Blood  Saliva  DNA, source:

Sample Collection Date:

i) Please note that this information affects interpretation for mitochondrial DNA testing. More information about sample requirements on [blueprintgenetics.com/sample-requirements](http://blueprintgenetics.com/sample-requirements).

## Sample labeling and shipping

Please follow these instructions for sample labeling.

We must have 2 identifiers to match the sample tube with your Nucleus order. Please ensure that the identifiers marked on the sample are an exact match to those provided in Nucleus or on your paper requisition form.

Prenatal samples should be clearly distinguished from maternal samples (eg, fetus of).

*We recommend that the promotion code EXPRESS14 is also noted and clearly visible on the outside of the sample shipment package for faster recognition at our laboratory.*
